TennCare Advocacy	99401T	TO	6	Primary Diagnosis From Encounter OR Unspecified Administrative Purpose	V689	1
	99402T					
COMMENTS: *All rural regions and Metros using the pharmacy module also need to use the Pharmacy module to record the dispensing of the Implanon or Nexplanon (NDC Codes). This will allow tracking for inventory purposes only, but will not produce a charge. Advocacy may be coded as appropriate. Refer to <u>TennCare Section</u> to identify activities and services related to TennCare.
