10.00 - GENERAL INFORMATION

10.010 - General Information

Last Change Date: 5/1/2009

This *PTBMIS Codes Manual* is the result of continuous input from public health providers in every region across the state. It is designed to be a standardized reference manual followed for correct and consistent coding by all providers who code on encounter forms. The proper use of this standardized reference manual will ensure that providers code services and activities accurately, completely and consistently across the state.

The codes manual is intended as the reference to show providers how to correctly code encounters for those situations occurring most frequently or routinely. Many special circumstances are also covered. However, it is not possible to describe every circumstance that might happen in patient care. Therefore, in any coding situation not listed in this manual, providers should consult this PTBMIS Codes Manual, Current Procedures Terminology (CPT), International Classification of Diseases (ICD-9), and the Centers for Medicare & Medicaid Services (CMS) Healthcare Common Procedure Coding System (HCPCS) for the clinical situation that is closest to their special or unique circumstance. The provider should then rely on their professional judgment and experience to decide how best to code the service according to the appropriate reference manuals listed above.

Similarly, it is not the intention of this manual to provide exhaustive list of every code for every possible service (such as lab codes, visit codes, etc.) It is understood that this manual is a standardized reference supported by other coding sources such as PTBMIS Procedures Codes list, Current Procedure Terminology (CPT), and the CMS Healthcare Common Procedure Reporting System (HCPCS). Please refer to these coding sources when necessary.

Please keep in mind, when using CPT Evaluation and Management (E/M) codes, that the CPT Services Guidelines should be followed. Levels of E/M service descriptors and examples in the selected category or subcategories should be reviewed. For example, when selecting a new patient office visit, level 99201 - 99205, the key components of history, exam and medical decision-making should be properly determined in the selection of the office visit level and documented accordingly in the medical record.

The *Bureau of Health Services Definition of New and Established Services*, which defines the new and established Public Health Patient, follows.

BUREAU OF HEALTH SERVICES

Definition of New & Established Patients

Last Change Date: 5/1/2009

CPT Definition – New and Establish Patient: A new patient is one who has not received any professional services from the physician or another physician of the same specialty who belongs to the same group practice, within the past three years.

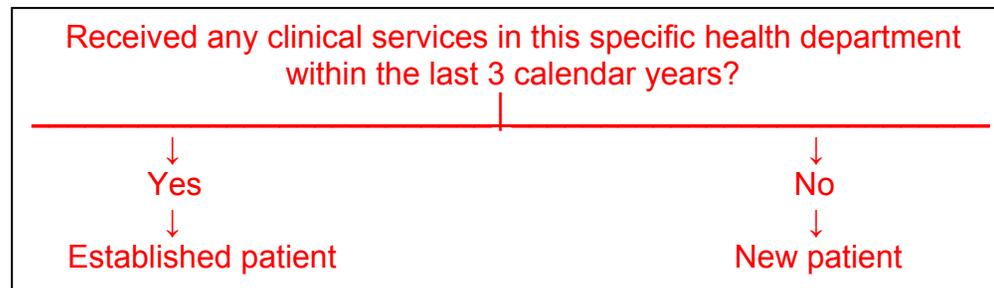

An established patient is one who has received professional services from the physician or another physician of the same specialty who belongs to the same group practice, within the past three years.

Definition of New and Established Public Health Patient: (For billing purposes) A new patient is one who has not received any clinical services from a local health department within the past three years by calendar date

An established patient is one who has received any clinical services from the local health department within the past three years by calendar date.

Changing Site of Service: (local health department to local health department or local health department to regional clinic) The first visit of a patient to a different local health department or regional clinic for any clinical services is considered a “new patient” visit.

Decision Tree for New vs. Established Patients:

Example: Patient was in clinic 1/15/2006 for immunizations only and returns 2/15/09 for STD program services – New patient office visit is indicated since last visit was over 3 calendar years from the 2/15/09 visit date.

Example: Patient was in clinic 3/1/06 for WIC certification and returns 2/1/09 for Primary Care services - established patient office visit code is indicated since last visit was less than 3 years from the 2/1/09 visit date.

Definition of New & Established Patients (Continued)

By coding accurately, completely and consistently, providers perform an extremely critical role in public health. Over-coding constitutes fraud. Under-coding escalates cost per unit of service and patient charges. Inconsistent coding impedes comparing productivity, efficiency and service outcomes across providers and clinics. We hope that this manual assists providers in performing their critical function of coding services in the local health departments.

Office Visit and Counseling Code Rules:

1. More than one counseling code may be coded on an encounter the same day if coded to different diagnosis codes and different program codes.

Example: Provider sees the patient for breastfeeding counseling and also provides the patient with a resupply of FP contraception.

2. An office visit and counseling can be coded to the same encounter if they are coded to different program codes and documentation is sufficiently supportive to show each code could stand alone.

Example: Provider does an STD exam office visit and also provides nutrition education counseling for WIC on the same encounter

Example: AIDS Prevention counseling: Counseling codes 99401-99404 should be used for face-to-face counseling and can be used with Program AP and Reimbursement 6 in conjunction with other program office visits. Another visit and a nutrition counseling visit may be coded during the same office visit based on Ryan White program guidelines.

SECTION 50 - CARE COORDINATION

Child Health and Development Program (CHAD) Definitions:

Last Change Date: 04/20/2004

TARGET POPULATION:

Preschool children (up to age 6) are eligible for this service if authorized by the CSA reviewing eligibility on behalf of the Department of Children's Services. Those eligible are children who are at risk of abuse and neglect and expectant mothers under eighteen (18) years of age, to prevent or reduce the risk of abuse and or developmental delays to the unborn child.

The following are definitions of each service code listed on the care coordination encounter form for CHAD services. In general, the only differences between CHAD and HUGS services are the target population and the prior authorization requirement. The services to be delivered are the same. The only metropolitan county authorized to provide CHAD services is Sullivan County.

99348A -- : Home Visit Attempt:

This code is used to document the home visitor's unsuccessful home visit attempt. The home visitor traveled to the ~~client's~~ patient's residence, but was not able to complete the home visit.. This code can only be used one time each day, per household, even if the worker stops by more than once in a day

Child Health and Development Program (CHAD) Definitions: (CONT.)

99350H -- Home Visits, Primary Client Patient:

Use this code to document services provided to the primary client patient for whom the referral is received. Services are provided in the client's patient's residence and/or where the client patient spends a significant amount of time. Only one code 99350H may be used per visit to the residence although multiple family members may be served concurrently at any one given visit to the home.

99350C -- Home Visit -- Other Client Patient

Use this code for any person in the home who receives a home visit but is not the primary recipient for the family. This code may be used for adults or children. This code is used to document service provision and not to merely identify members of the household.

99349H -- Other Visit -- Primary Client Patient

This code is used to document services provided to the primary client patient when the services are provided at a site other than the client's patient's residence, i.e., day care program, doctor's office, or other public offices. This code should be used as an exception when there is no other avenue for meeting with the family.

99349C -- Other Visit -- Other Client Patient

This code is used to document services provided to someone other than the primary client patient at a site other than the client's patient's home. Examples of sites include day care programs, doctor's offices or other public offices. This code may be used for adults or children. This code is used to document service provision and not merely to identify members of the household who were present. This code should be used as an exception when there is no other avenue for meeting with the family.

1516 -- Case Closure

This code is used to close the case to home visiting services.

To code CHAD physicals:

- 1) Use program code AD and the appropriate Payor Code for CHAD ~~clients~~ patients who have private insurance coverage.
- 2) Use program code AD and Payor 6 for CHAD ~~clients~~ patients with no third party coverage. HU

Children's Special Services (CSS) (Applications, Follow-up, Care Coordination) Definitions:

Last Change Date 04/20/2004

FUNDING:

Children Special Services (CSS) is the Federal Title V, MCH Block Grant, Children with Special Health Care Needs (CSHCN) program offered by the Tennessee Department of Health, Maternal and Child Health Section

SERVICE SITE:

The primary service site is in the home.

TARGET POPULATION:

Residents of Tennessee, birth to 21 years of age, who have chronic illness or a medical condition, which may affect the independent functioning of a child.

The following are definitions of each service code listed on the care coordination encounter form for CSS services.

99350H -- Home Visit:

This code shall be used on initial, re-certification or other home visits. Home visits are visits conducted with the **client patient** and/or family member at the participant's current residence, or at site other than the **client's patient's** home, for the purpose of assessing the child and family's need for appropriate services, coordination of medical and non-medical services, assistance with appeals for denied services, providing education and information on diagnosis. Progress and problems are identified and documented per CSS program policy.

99348A -- Attempted Home Visit:

This code is used to document a worker's unsuccessful home visit attempt. The worker traveled to the participant's residence, but was not able to complete the home visit. This code can only be used once per day per family.

99403 - Office Visit:

This code is used when an assigned worker meets with a family at the health department or regional office, or any CSS "sponsored" off-site clinic.

99404 - Other Contacts:

This code is used when an assigned worker makes a visit outside his/her office on behalf of the **client patient**. Such contacts should include: M-Team/IEP meetings with Department of Education, visits to SSI office, DHS office and any other fact-to-face contact outside the assigned workers office, including private Doctor's office and other clinics "not CSS sponsored."

1516 - Case Closure:

This code is used to indicate a record has been closed for any reason. This can apply to a child that remains on CSS but is transferred to another region or county closed.

Private Pay Adult Dental Services

Private pay adult dental services require a minimum fee of \$5.00 per visit to be paid at the time of the visit. Before the patient leaves the Health Department, the encounter should be keyed and **UPDATED – BUT NOT FINALIZED**. If the balance due from the patient for the services received is less than \$5.00, the command “**MINF DN**” (**MINF** space prg **DN** code) should be entered while on the encounter screen. The difference between the patient’s charge(s) for the day’s visit and the \$5.00 minimum will be calculated by the system and applied to the balance due. The “Update Complete” message will be shown and the encounter can be finalized.

Private Pay Adult Dental Services With Lab

The appropriate procedure code followed by the “A” modifier must be used. This will charge the full cost of the lab to the patient.

Private Pay Adult Dental Services Without Lab

The appropriate procedure code with no modifier should be used. This will allow the charge to be based on the sliding fee scale.

****For emergency dental services use diagnosis code EMER.**

Vaccine / Immunization Administration

90471 – Immunization administration

Includes percutaneous, intradermal, subcutaneous, or intramuscular injections
One vaccine (single or combination vaccine/toxoid)

Do not report 90471 in conjunction with 90473

+90472 – Each additional vaccine (single or combination vaccine/toxoid)

List separately in addition to code for primary procedure

Use 90472 in conjunction with 90471 or 90473

90473 – Immunization administration by intranasal or oral route

One vaccine (single or combination vaccine/toxoid)

Do not report 90473 in conjunction with 90471

+90474 – Each additional vaccine (single or combination vaccine/toxoid)

List separately in addition to code for primary procedure

Use 90474 in conjunction with 90471 or 90473

Examples:

1 shot = 90471

2 shots = 90471 and 90472 (quantity 1)

1 intranasal/oral = 90473

1 intranasal/oral and 2 shots = 90473 and 90472 (quantity 2)

2 intranasal/oral and 2 shots = 90473 and 90474 (quantity 3)

The 90474 code is only for when a provider would rarely give both multiple oral/intranasal vaccines and shots.

Vision Screening (99173): When a physician, nurse or nursing assistant screens a child during an EPSD&T visit for an OBJECTIVE vision screen utilizing a Snellen, Snellen ABC, Tumbling E Chart, Titmus, photo screener or Sure Sight machine. This service should be coded using the 99173 code. Use this code in addition to the EPSD&T preventive code when an OBJECTIVE screening is provided to children according to the AAP Periodicity Schedule.

Hearing Screening (92551) : When a physician, nurse, or nursing assistant screens a child during an EPSD&T visit for an OBJECTIVE hearing screen utilizing an audioscope, Tetratone II or an audiometer, this service can be coded using the 92551 code. Use this code in addition to the EPSD&T preventive code for an OBJECTIVE screening provided to children according to the AAP Periodicity Schedule.

Developmental/Behavioral Screening (96110): A developmental/behavioral screening is to be provided at each EPSD&T screening visit to children according to the AAP Periodicity Schedule. The screening instrument may be The Parents Evaluation of Developmental Status (PEDS); the Pediatric Symptom Checklist (PSC) or the Adolescent Developmental/Behavioral Questionnaire.

COMMENTS:

For all children on TennCare, an assessment is always made while the child is present in clinic (or during a home visit, if appropriate) to determine if the child is due for an EPSD&T screen according to the periodicity schedule. If due a screen and the child is present, the child will be offered a screen by the discipline that can do the screenings. If for any reason the screenings cannot be done that day (e.g., during a home visit), an appointment will be scheduled for a later date, either with the LHD or PCP.

COMMENTS:

For non-TennCare DCS children, a CMS 1500 (formerly called a HCFA) will be generated. This should be forwarded to the Regional Accountant for preparation of a journal voucher (JV).

For all DCS children, an assessment is always made while the child is present in clinic (or during a home visit, if appropriate) to determine if the child is due for an EPSD&T screen according to the periodicity schedule. If due a screen and the child is present, the child will be offered a screen by the discipline that can do the screenings. If for any reason the screenings cannot be done that day (e.g., during a home visit), an appointment will be scheduled for a later date, either with the LHD or PCP. If the parent or guardian refuses either to have the screen that day or make an appointment at a later date and the provider has made an effort to educate, encourage, and assist the parent with getting the needed screen, then the refusal is to be documented in the medical record.

* Comprehensive health and developmental history	*	Comprehensive unclothed physical exam
* Appropriate immunizations	*	Appropriate laboratory tests
* Health education	*	Hearing assessment
* Visual assessment		

Vision Screening (99173): When a Physician, Nurse Or Assistant Screens A Child During An EPSD&T Visit For An OBJECTIVE Vision Screen Utilizing A Snellen, Snellen, Tumbling E Chart, Titmus, Photo Screener Or Sure Sight Machine. This Service Should Be Coded Using The 99173 Code. Use This Code In Addition To The EPSD&T Preventative Code When An OBJECTIVE Screening Is Provided To Children At The Ages Of 3, 4, 5, 6, 8, 10, 12, 15, And 18 Years, According To The AAP Periodicity Schedule.

Hearing Screening (92551): When A Physician, Nurse, Or Nursing Assistant Screens A Child During An EPSD&T Visit For An Objective Hearing Screen Utilizing an Audioscope, Tetratone II Or An Audiometer, This Service Can Be Coded Using The 92551 Code. Use This Code In Addition To The EPSD&T Preventative Code For An OBJECTIVE Screening Provided To Children At The Ages Of 4, 5, 6, 8, 10, 12, 15, And 18 Years, According To The AAP Periodicity Schedule.

Developmental Behavioral Screening (96110): A Developmental/Behavioral Screening Is To Be Provided At Each EPSD&T Screening Visit, Based On The Age Of The Child/Young Person. The Screening Instrument May Be The Parents Evaluation Of Developmental Status (PEDS), The Pediatric Symptom Checklist (PSC) Or The Adolescent Developmental/Behavioral Questionnaire.

<p>COMMENTS: Do not code condoms. Genprobe done on FP patient is coded FP, not ST. Code vaccines given when FP patient gets immunization(s) during FP visit. When a FP patient has a medical problem (i.e., ear infection) and is referred to Primary Care Clinic during the <u>same day</u>, the Primary Care Visit must be coded to the CH or WH Program and the Other Visit code must have the "25" modifier added. (See VISITS SECTION) FP patients who present for services <u>not related</u> to the FP Program should have services provided coded to the appropriate program. The time a nurse spends entering lab results and doing tracking for pap smears is considered overhead. If FP patient presents for scheduled appointment but practitioner is sick and unavailable (our fault), code a Recheck Visit (3734) and dispense one (1) pack of pills to "hold over" until patient can be seen. If patient runs out of pills because of non-compliance (patient's fault) code a 15 minute counseling visit (99401) and dispense one (1) pack of pills to encourage compliance in the future. If patient has heavy menses and needs HGB check, do not code to FP Program, use CH or WH. If HGB is routinely done during initial exam, then code to FP Program.</p>

Approximately 15 Min.	INT1					
Approximately 30 Min.	INT2					
Approximately 45 Min	INT3					
Approximately 60 Min.	INT4					

COMMENTS:

INT1, INT2, INT3, and INT4 codes reflect the use of an interpreter in approximately 15-minute increments of time up to a maximum of 60 minutes. Interpreters may be local Health Department staff working in other areas, who are not providing the service. Interpreters may also include outside contract personnel, voluntary qualified community interpreters, and telephonic language interpreter services. The provider using the interpreter should code the appropriate **INT** code based on the time the interpreter spent during the procedure(s) on the encounter form using his or her provider number. The **INT** code should be used only once per program per visit even if multiple providers delivered services within that program. If multiple providers in different programs use an interpreter, then the **INT** code may be used more than once on an encounter form by coding it to the appropriate program codes. The **INT** code will not be used for front-desk registration or any other activity for which there is no corresponding procedure code even if an interpreter is involved in the activity. If a bilingual provider delivered a service to a patient with limited English proficiency without the use of an interpreter, then the **INT** code would not be used.

For community site visits when an interpreter is used or a bilingual provider conducts a session in a language other than English, code IN in the DISPOSITION field for procedure 78059 with appropriate units of time.

99401T LEVEL I -- WHO CAN PROVIDE IT?

Any health department employee -- public health nurse, clerk, social worker / social counselor, nutritionist, nursing assistant, public health representative, etc. - may provide Level I advocacy activities.

99401T LEVEL I -- HOW DO YOU CODE IT?

Many 99401T advocacy activities can be done by different providers during a clinic visit. However, only one (1) 99401T activity may be coded on the patient encounter form per clinic visit.

99401T LEVEL I -- HOW DO I DOCUMENT IT?

99401T advocacy activities must be documented on one of the following:

- A. The TennCare Advocacy Encounter/Log; OR
- B. The TennCare Advocacy Documentation Tool; OR
- C. The SOAP clinical note.

CODE 99402T: LEVEL II -- WHAT IS IT?

- A. Assisting with understanding recommended interventions, treatments, medications and/or need for additional appointments;
- B. Obtaining referrals or prior authorizations for prescribed medications, formulas, medical supplies, durable medical equipment, or specialized medical/dental procedures;
- C. Obtaining health care for a TennCare enrollee by assisting the **client patient** to appeal an MCO/BHO decision about their medical or behavioral health care or their pharmacy benefits. This activity includes the justification a physician or nurse clinician may be required to submit to an MCO in order for a prescription to be prior authorized and provided by the MCO;
- D. Obtaining health care for a TennCare enrollee by assisting the **client patient** to appeal an MCO/BHO's lack of timely access to needed services, including provider network inadequacies, the inability to obtain an appointment within required time frames, etc.;
- E. Obtaining health care for a TennCare enrollee by assisting the **client patient** to appeal an MCO/BHO's decision about providing transportation to medical/behavioral appointments;
- F. Patient education above and beyond that which would **normally be provided for any patient** in association with the type of service delivered that day.
- G. Providing transportation.

210.010 - Screening Visit for Breast & Cervical Cancer (Continued)

Women must be 40 years of age or older and meet the general eligibility guidelines for the program. Screening services including office visits and lab tests will not be covered by TBCCEDP for women under 40. These services for women younger than 40 must be coded to FP, WH, or CH depending on the age and/or eligibility status of the woman

TBCCEDP covers services for eligible women including office visits, Pap tests, colposcopies, mammograms and other diagnostic procedures listed on the reimbursement schedule.

The program cannot pay for treatment; women who are diagnosed with breast or cervical cancer are referred to TennCare as presumptive eligible women with full Medicaid coverage for 45 days. See Section 180 (TennCare Presumptive Eligible Enrollment) for coding Presumptive Eligibility Enrollment. Other gynecological cancers are not covered by this Medicaid category

* Code 99080A should only be used one time.

** Code 99080B requires documentation by the nurse in the patient record and can be used up to three (3) times within a 60 day period. See Program Guidelines)

COMMENTS:

If you have contracted to charge an office visit for giving an immunization (i.e., Hep B), code the vaccine (i.e. HBC) and use code 10299 or 78085 - Education/Contract Services with the appropriate quantity at \$1.00 per unit to make up the difference.

Code injections (i.e., Hep B) given to patients 21 and over when there is no contract and should be no charge using Program Code EI rather than MH or WH.

*See Definitions page 1 of this section for Vaccine/Immunization Administration Codes selections.

COMMENTS:						
<p>During a mass screening, if <u>multiple</u> providers see the <u>same</u> patient, only the highest level provider codes the encounter. If <u>each</u> provider does <u>individual</u> screening, then each provider should code on the encounter showing their time in 30 minute increments. If multiple presenters provide mass education, each should code their specific presentation time. If multiple providers share responsibility for mass education but work separately to provide a specific service, i.e., CPR class divided into groups, each provider should code a line on the encounter showing time spent in 30 minute increments in the QTY column and the number of people trained in the margin.</p> <p>Both 78059 and 3560 have the same description and should be coded in 30 minute increments in the QTY column on the encounter form. On the encounter form, write the number of participants in the group in the mile column beside the line your code is on. Person who keys encounter will key number of participants on the EN Screen in the MILE column. If more than one of the same service is provided in one day, show TOTAL time spent in QTY column and GRAND TOTAL of participants served in the <u>mile</u> column on the encounter form. <u>If at least one of the group participants is female, use the WH Program Code.</u></p>

SECTION 240 - WIC

WIC Definitions - Last Change Date: 11/01/2002

Code 1004 -- Voucher issuance includes the following activities:

- Issue an encounter, updating the WICQ screen
- Print vouchers and receipt
- Obtain participant signatures on vouchers and receipt
- Explain use of vouchers
- Void vouchers if printed in error, and reissuing corrected vouchers
- Check the receipts against the WIC Receipt Report printed at the end of the day.

==>OR<==

Code 1000 -- WIC certification includes the following activities:

- Obtain certification measures (height and weight, and hemoglobin according to protocol)
- Plot measures on growth chart
- Take medical history
- Complete nutrition assessment
- Determine risk criteria
- Complete the encounter form
- Document in the medical record

Code 78059 -- (no medical record) and Code 3560 -- (has medical record) Field Service:

Provide mass education at health fairs, presentations in the community or workshops for other agencies about the WIC program and its benefits.

Code 99350H -- Initial Home Visit includes:

- Complete nutritional assessment in patient's home, relating to a documented problem or medical diagnosis
- Develop a Care Plan
- Provide nutritional counseling and make any necessary referrals
- Document in the medical record

Code 99349H -- Follow-up Home Visit

- Update previous nutrition assessment in patient's home
- Review and update plan of care
- Provide nutritional counseling

Clarification for Coding Pregnancy Tests

If a woman presents seeking WIC services as a prenatal without written proof of pregnancy who is not obviously pregnant, a pregnancy test must be done to confirm pregnancy for admission to the WIC Program. The appropriate level counseling code and a pregnancy test will be coded using Program Code CH or WH. EXCEPTION: If patient is already an active Family Planning patient the pregnancy test should be coded to program FP.
